<b>IDENTIFICATION OF DOCUMENT</b> (author, form, addressee, title & length) Memorandum from [REDACTED] Chief, Global Survey Group, to Chief, Plans and Policy Staff. Subject: Requests for Inter-Agency Assistance. 2 pp.				<b>LOCATION:</b> HS/HC-100M Item 13

**ABSTRACT**

This memo concerns the functions of the Global Survey Group\* in regards to outside agencies. It states that the G/GS cannot make direct requests to these agencies because G/GS tasks are normally of an urgent nature and require evaluation not research. They deal with specific problems that are not pertinent to outside agencies. Also G/GS has no "opposite number" with which it can deal so it must depend on the ORE Branches. The memo then gives its accomplishments to date: Special Evaluation No. 28, ORE 22-48, and ORE 58-48, stating that all tests used for discussion were prepared with ORE except one. Ordinary liaison is carried out through a Joint Ad Hoc Committee.
